

MIECHV Benchmarks

Desk Guide

June 2021

This guide will give you:

The MIECHV definition of each of the Benchmark measures

The number of cases in the cohort that meet the measure (Numerator)

The cohort being reported on (Denominator)

Your focus; what to make sure to do

Where to find the information relevant to each benchmark in the MIS

Benchmark 1: Preterm Birth

Domain: Improvements in maternal, newborn, and child health

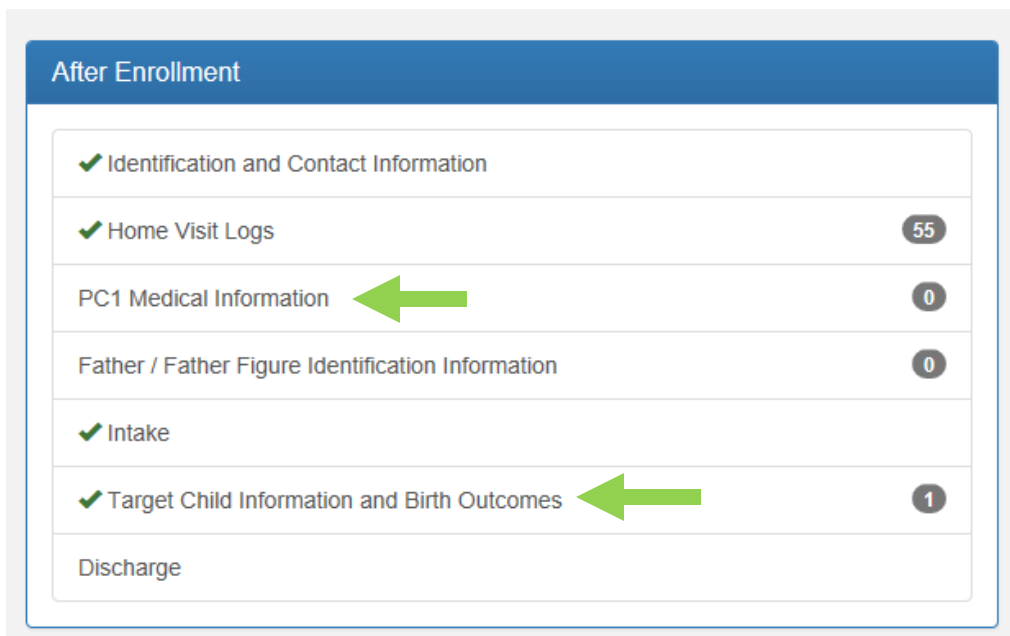

Systems
Outcome

 **Definition:** Percent of children (among mothers who enrolled in home visiting prenatally before 37 weeks) who are born preterm following program enrollment (note: lower is better).

 **Cases that meet measure** (Numerator): # of children born who were premature.

 **Total cohort** (Denominator): # of children who were born to mothers enrolled prenatally before 37 weeks.

 **Your Focus:** Make sure to record the birth term.

After Enrollment

- ✓ Identification and Contact Information

Target Child Health Insurance Additional Items PHQ-9 MIECHV

1. Primary Caregiver's Identifier

Target Child's Date of Birth

2. Home Visitor's Name

Information on Target Child

3. Was target child born

4. Multiple Birth

5. Target Child's Name

6. Is Target Child deceased?

Prenatal Care and Pregnancy Outcomes

7. Target Child's gender

MIS Report | Match Quality Birth Outcomes Report | High

Report Notes | Includes all TCs, not just for PC1s enrolled before 37 weeks, but does break out by trimester of enrollment

Benchmark 2: Breastfeeding

Domain: Improvements in maternal, newborn, and child health

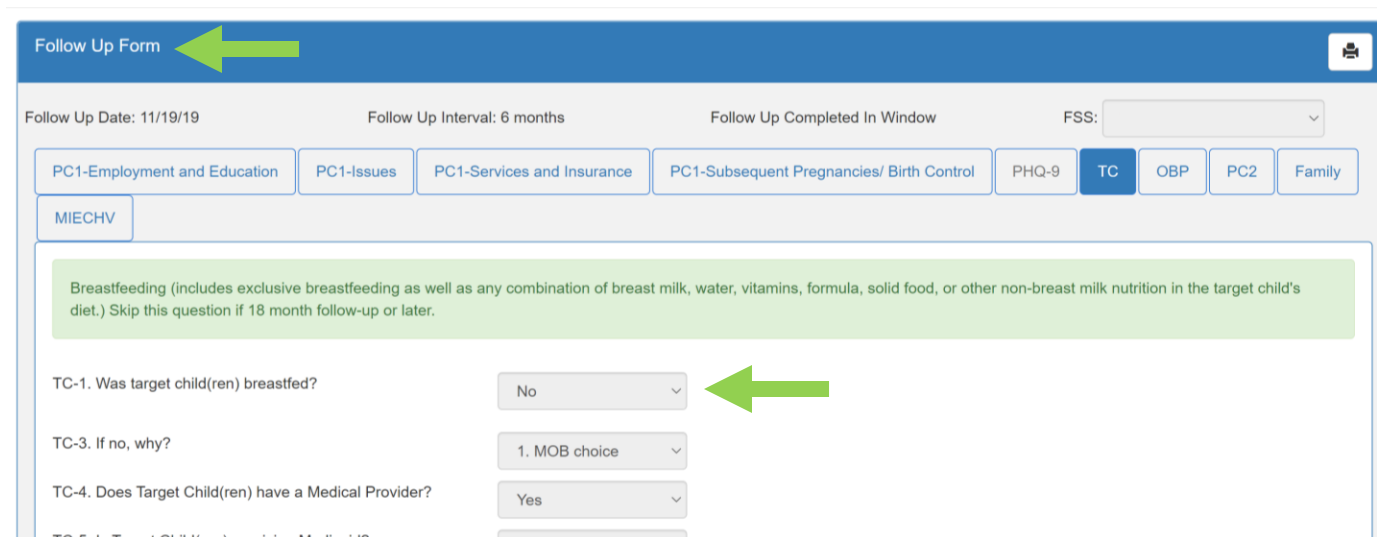

Systems
Outcome

 **Definition:** Percent of children (among mothers who enrolled in home visiting prenatally before 37 weeks) who were breastfed any amount at 6 months of age.

 **Cases that meet measure (Numerator):** # of children who were breastfed any amount at 6-month follow-up visit.

 **Total cohort (Denominator):** # of children who are 6-12 months and were enrolled prenatally who have had a 6-month follow-up visit.

 **Your Focus:** Have ongoing conversations with moms about breastfeeding.

MIS Report | Match Quality Quarterly Performance Targets: item PCI1a | Medium

Report Notes | Goes by PC1 not TC; includes all TCs (where PC1 is bio-mom) 6-15 months old, not just those enrolled prenatally

Benchmark 3: Depression Screening

Domain: Improvements in maternal, newborn, and child health

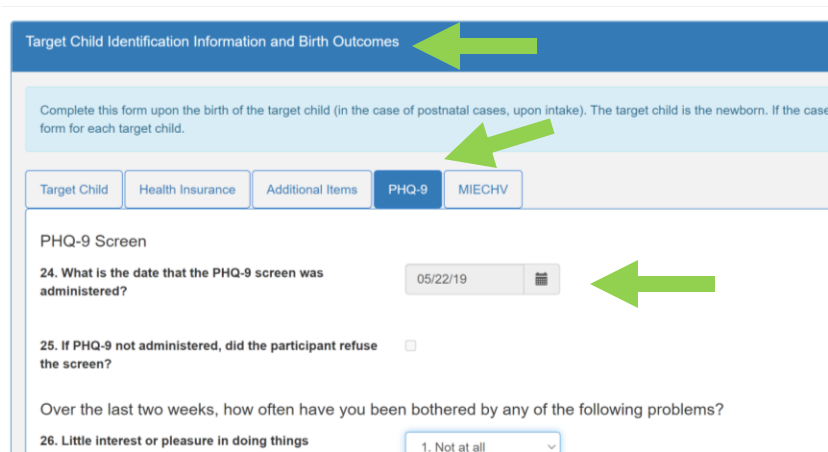

Performance
Indicator

 **Definition:** Percent of primary caregivers (PC1s) enrolled in home visiting who are screened for depression using a validated tool within 3 months of enrollment (for those not enrolled prenatally) or within 3 months of delivery (for those enrolled prenatally).

 **Cases that meet measure (Numerator):** For those not enrolled prenatally, number of PC1s enrolled in home visiting who are screened for depression within the first 3 months since enrollment; for those enrolled prenatally, the number of PC1s screened for depression within 3 months of delivery.

 **Total cohort (Denominator):** For those not enrolled prenatally, the number of PC1s enrolled in home visiting for at least 3 months; for those enrolled prenatally, the number of PC1s enrolled in home visiting for at least three months post delivery.

 **Your Focus:** Do the PHQ9 and record it!

Target Child Identification Information and Birth Outcomes

Complete this form upon the birth of the target child (in the case of postnatal cases, upon intake). The target child is the newborn. If the case form for each target child.

Target Child Health Insurance Additional Items **PHQ-9** MIECHV

PHQ-9 Screen

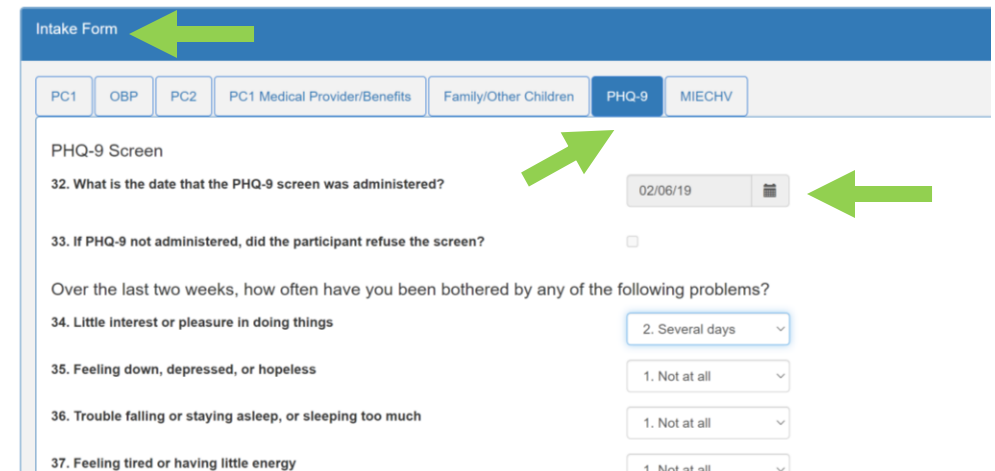

24. What is the date that the PHQ-9 screen was administered? 05/22/19

25. If PHQ-9 not administered, did the participant refuse the screen? ☐

Over the last two weeks, how often have you been bothered by any of the following problems?

26. Little interest or pleasure in doing things 1. Not at all

-OR-

PC1 OBP PC2 PC1 Medical Provider/Benefits Family/Other Children **PHQ-9** MIECHV

PHQ-9 Screen

32. What is the date that the PHQ-9 screen was administered? 02/06/19

33. If PHQ-9 not administered, did the participant refuse the screen? ☐

Over the last two weeks, how often have you been bothered by any of the following problems?

34. Little interest or pleasure in doing things 2. Several days

35. Feeling down, depressed, or hopeless 1. Not at all

36. Trouble falling or staying asleep, or sleeping too much 1. Not at all

37. Feeling tired or having little energy 1. Not at all

MIS Report | Match Quality 7-4.B&C Pre/Postnatal Administration of PHQ9 Screen | High

Report Notes | Pre and Postnatal depression screening tracking are separate reports, so need to be combined to match MIECHV indicator

Benchmark 4: Well-Child Visit

Domain: Improvements in maternal, newborn, and child health

Performance Indicator

 **Definition:** Percent of children enrolled in home visiting who received the last recommended visit based on the American Academy of Pediatrics (AAP) schedule.

 **Cases that meet measure** (Numerator): # of children enrolled in home visiting who received the last recommended well child visit based on the AAP schedule.

 **Total cohort** (Denominator): # of children enrolled in home visiting.

 **Your Focus:** Have conversations with PC1 about getting well-child visits on time; record them when they happen.

Report Notes | TCs age 15-21 months with at least 5 WBV by 15 months, or 27-33 months with at least 2 WBV between 15 and 27 months

Benchmark 5: Post-Partum Care

Domain: Improvements in maternal, newborn, and child health

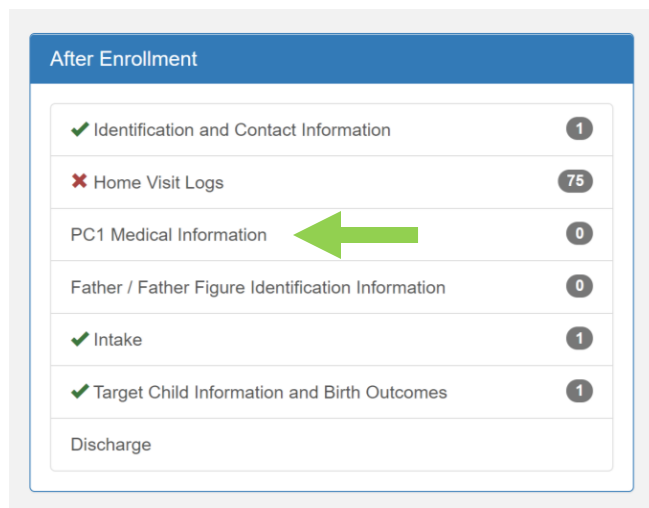

Performance
Indicator

 **Definition:** Percent of mothers enrolled in home visiting prenatally (or within 30 days after delivery) who received a postpartum visit with a healthcare provider within 8 weeks (56 days) of delivery.

 **Cases that meet measure** (Numerator): # of mothers enrolled in home visiting prenatally (or within 30 days after delivery) who received a postpartum visit with a healthcare provider within 8 weeks (56 days) of delivery.

 **Total cohort** (Denominator): # of mothers who enrolled in home visiting prenatally (or within 30 days after delivery) and remained enrolled for at least 8 weeks (56 days) after delivery.

 **Your Focus:** Have conversations with moms about getting a postpartum visit; record it when it happens.

MIS Report | Match Quality Summary of Home Visit Log Activities | Low

Report Notes | % visits where medical/prenatal appointment for PC1 was recorded; not specifically for postpartum OB/GYN visits

Benchmark 6: Tobacco Cessation Referrals

Domain: Improvements in maternal, newborn, and child health

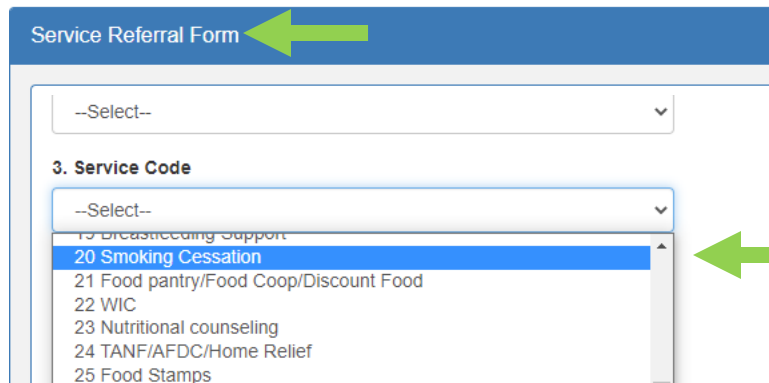

Performance
Indicator

 **Definition:** Percent of primary caregivers (PC1s) who reported smoking and using tobacco at enrollment and were referred to cessation counseling.

 **Cases that meet measure** (Numerator): # of PC1s who reported using tobacco or cigarettes at enrollment and were referred to tobacco cessation counseling or services within 3 months of enrollment.

 **Total cohort** (Denominator): # of PC1s who reported using tobacco or cigarettes at enrollment and were enrolled for at least 3 months.

 **Your Focus:** Ask about tobacco use at enrollment and make the referral if necessary; record the referral.

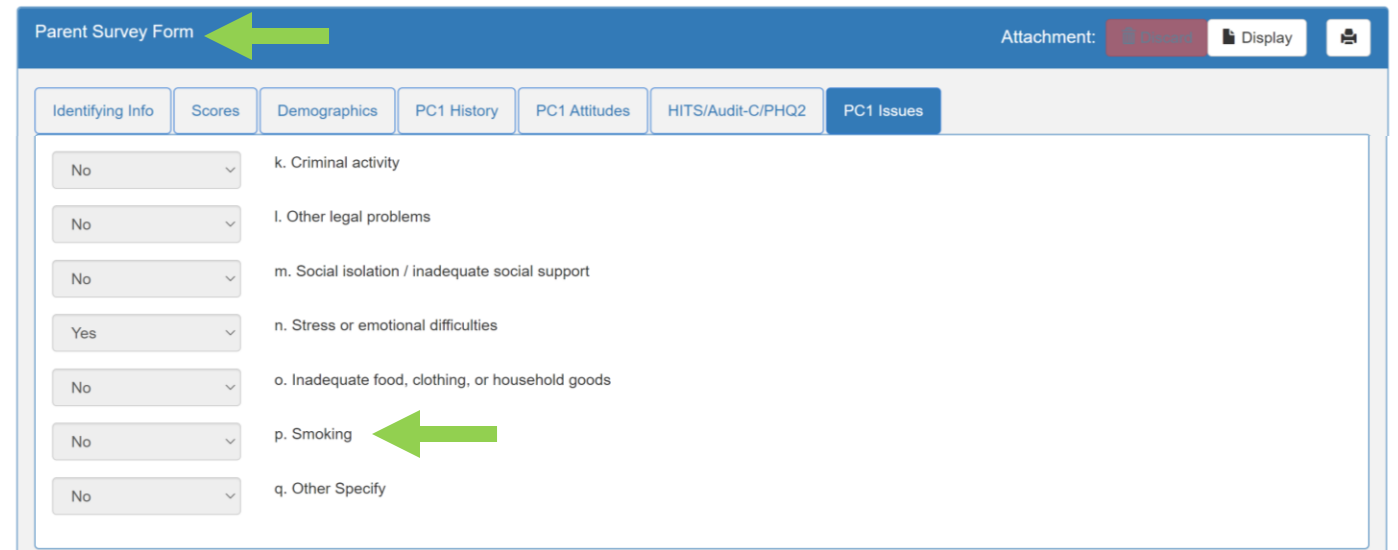

The screenshot shows the 'Service Referral Form' with a dropdown menu for '3. Service Code'. The dropdown is open, showing a list of service codes. '20 Smoking Cessation' is highlighted in blue. A green arrow points to the dropdown menu.

MIS Report | Match Quality List: Count of Service Referrals by Code | Low

Report Notes | Counts number of smoking cessation referrals given in period, not number of PC1s referred or timeline of referral

Benchmark 7: Safe Sleep

Domain: Prevention of child injuries, child abuse, neglect, or maltreatment and reductions of ER visits

Performance
Indicator

 **Definition:** Percent of children enrolled in home visiting that are always placed to sleep on their backs, without bed-sharing or soft bedding.

 **Cases that meet measure** (Numerator): # children (aged less than 1 year) enrolled in home visiting that are always placed to sleep on their backs, without bed-sharing or soft bedding.

 **Total cohort** (Denominator): # of children enrolled in home visiting who were aged less than 1 year.

 **Your Focus:** Have ongoing discussions with PC1s about safe sleep practices.

Benchmark 8: Child Injury

Domain: Prevention of child injuries, child abuse, neglect, or maltreatment and reductions of ER visits

Systems
Outcome

 **Definition:** Rate of injury-related visits to the Emergency Department (ED) since enrollment among enrolled children (note: lower is better).

 **Cases that meet measure** (Numerator): # of parent-reported nonfatal injury-related visits to the ED since enrollment among children enrolled in home visiting.

 **Total cohort** (Denominator): # of children enrolled in home visiting.

 **Your Focus:** Record date and reason for Emergency Department visits due to accident or injury (choices 1 to 16 in dropdown).

MIS Report | Match Quality Summary of Home Visit Log Activities | Low

Report Notes | Report shows % visits where ER visit for TC was recorded, not % of TCs with an ER visit

Benchmark 9: Child Maltreatment

Domain: Prevention of child injuries, child abuse, neglect, or maltreatment and reductions of ER visits

Systems
Outcome

 **Definition:** Percent of children enrolled in home visiting with at least 1 investigated case of maltreatment following enrollment (note: lower is better).

 **Cases that meet measure** (Numerator): # of children enrolled in home visiting with at least 1 investigated case of maltreatment since enrollment.

 **Total cohort** (Denominator): # of children enrolled in home visiting.

 **Your Focus:** HFNY's focus is always to prevent child abuse, neglect, or maltreatment.

OCFS Pulls this data annually from CONNECTIONS, it is not in MIS

MIS Report | Match Quality None | N/A

Report Notes | N/A

Benchmark 10: Parent-Child Interaction

Domain: Improvements in school readiness, child academic achievement

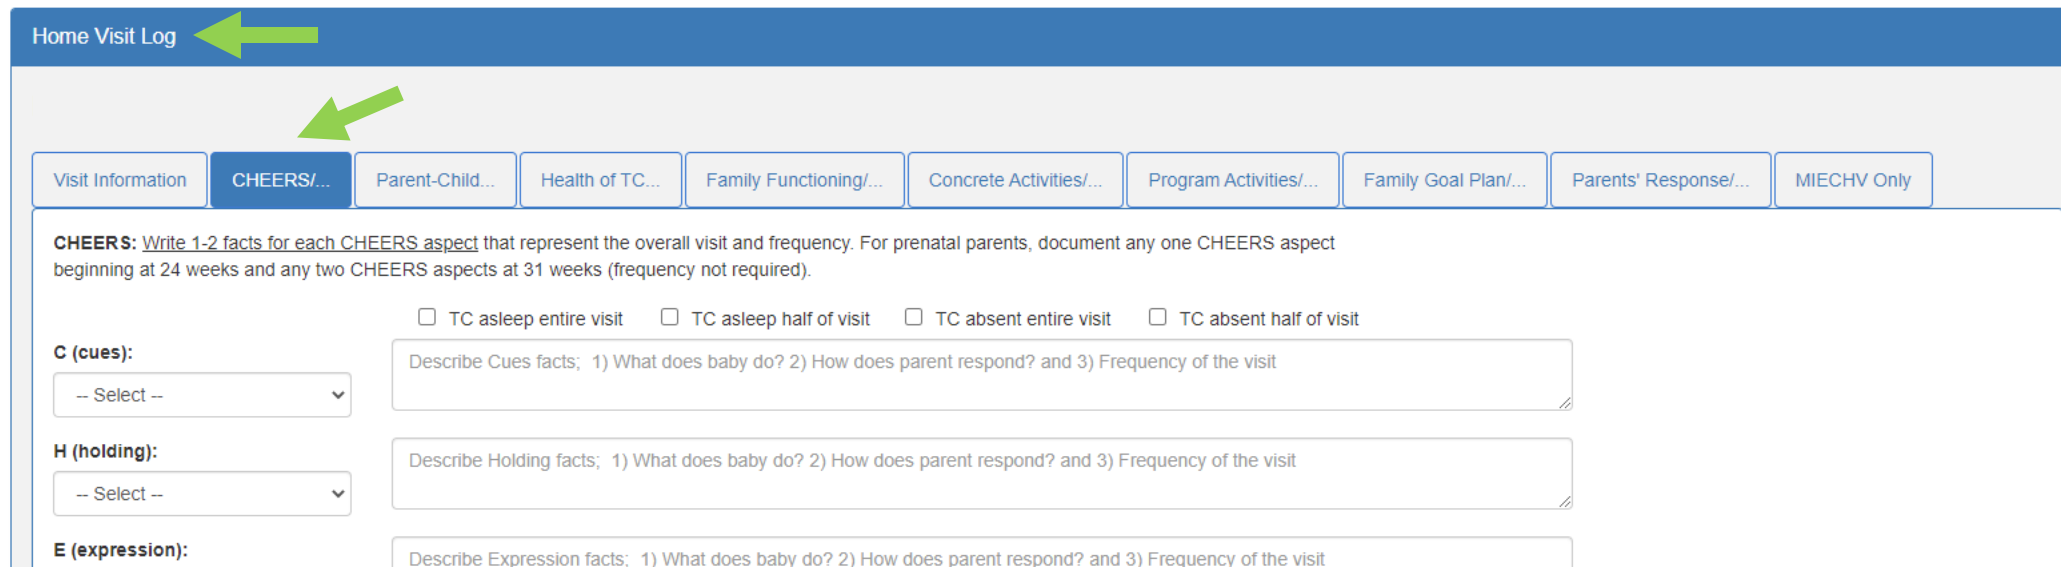

Performance
Indicator

 **Definition:** Percent of primary caregivers (PC1s) enrolled in home visiting who receive an observation of caregiver-child interaction by the home visitor using a validated tool (CHEERS Check-In Tool).

 **Cases that meet measure** (Numerator): # of PC1s enrolled in home visiting who receive an observation of caregiver-child interaction by the home visitor using a validated tool.

 **Total cohort** (Denominator): # of PC1s enrolled in home visiting with children reaching the target age range (6 to 60 months).

 **Your Focus:** Do the CHEERS Check In!

Home Visit Log

Visit Information **CHEERS/...** Parent-Child... Health of TC... Family Functioning/... Concrete Activities/... Program Activities/... Family Goal Plan/... Parents' Response/... MIECHV Only

CHEERS: Write 1-2 facts for each CHEERS aspect that represent the overall visit and frequency. For prenatal parents, document any one CHEERS aspect beginning at 24 weeks and any two CHEERS aspects at 31 weeks (frequency not required).

☐ TC asleep entire visit ☐ TC asleep half of visit ☐ TC absent entire visit ☐ TC absent half of visit

C (cues):
-- Select --
Describe Cues facts; 1) What does baby do? 2) How does parent respond? and 3) Frequency of the visit

H (holding):
-- Select --
Describe Holding facts; 1) What does baby do? 2) How does parent respond? and 3) Frequency of the visit

E (expression):
Describe Expression facts; 1) What does baby do? 2) How does parent respond? and 3) Frequency of the visit

MIS Report | Match Quality 6.3D Use of CHEERS Check-In Tool | High

Report Notes | Report includes TCs at least 7 months old, not 6-60; Looking for at least once per year per child

Benchmark 11: Early Language & Literacy Activities

Performance Indicator

Domain: Improvements in school readiness, child academic achievement

 **Definition:** Percent of children enrolled in home visiting with a family member who reported that during a typical week s/he read, told stories, and/or sang songs with their child daily, every day.

 **Cases that meet measure (Numerator):** # of children enrolled in home visiting with a family member who reported that during a typical week s/he read, told stories, and/or sang songs with their child daily, every day.

 **Total cohort (Denominator):** # of children enrolled in home visiting.

 **Your Focus:** Have ongoing discussions about the importance of these activities; record it in the HV Log section below.

MIS Report | Match Quality Summary of Home Visit Log Activities | Low

Report Notes | Report shows % logs where item was answered, not % of postnatal TCs with affirmative/every day answers

Benchmark 12: Developmental Screening

Domain: Improvements in school readiness, child academic achievement

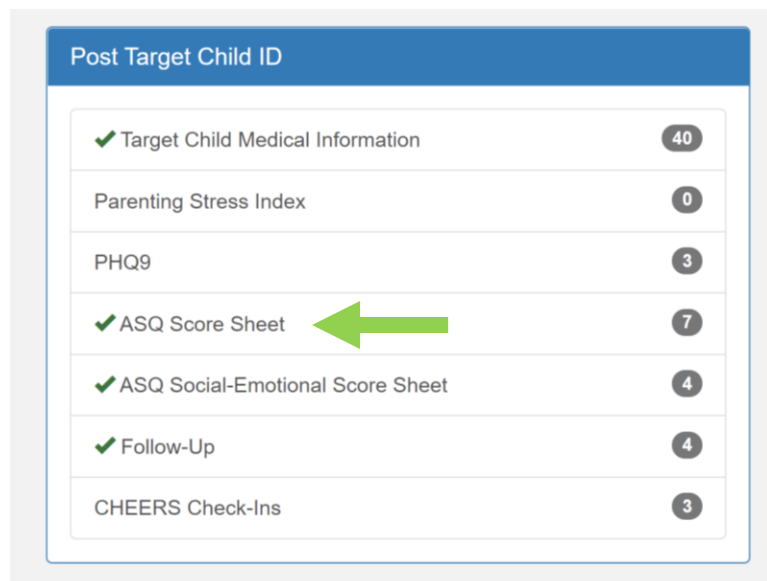

Performance
Indicator

 **Definition:** Percent of children enrolled in home visiting with a timely screen for developmental delays using a validated parent-completed tool (Ages & Stages Questionnaire, ASQ).

 **Cases that meet measure** (Numerator): # of children who had at least 1 age-appropriate (in reporting period) ASQ.

 **Total cohort** (Denominator): # of children aged 9-30 months.

 **Your Focus:** Follow the recommended schedule for the ASQ.

Add New ASQ

ASQ Date:

MIS Report | Match Quality Quarterly Performance Targets: item HD7 | Low

Report Notes | Report shows % TCs (who did not previously score under cutoff on ASQ and are not receiving EI/DD services) who score above cutoff on ASQ or referred for services, not % TCs with an ASQ. Also report shows TCs 4+mo, instead of 9-30 mo.

Benchmark 13: Behavioral Concerns

Domain: Improvements in school readiness, child academic achievement

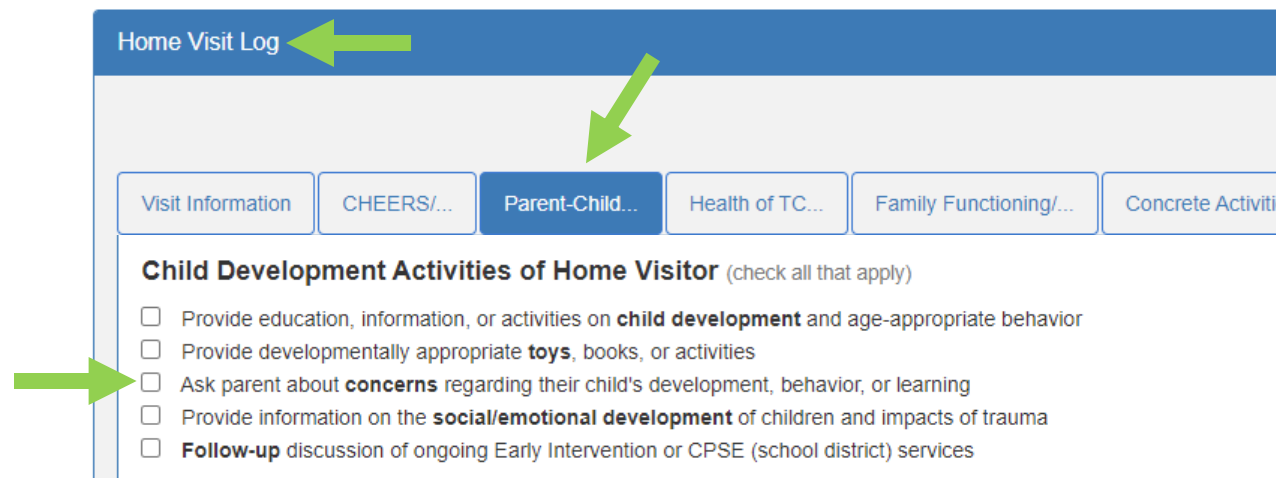

Performance
Indicator

 **Definition:** Percent of home visits where primary caregivers (PC1s) were **asked by the FSS** if they have any concerns regarding their child's development, behavior, or learning (even if they do not have concerns).

 **Cases that meet measure** (Numerator): # of home visits where PC1s enrolled in home visiting were **asked** if they have any concerns regarding their child's development, behavior, or learning.

 **Total cohort** (Denominator): # of home visits.

 **Your Focus:** Ask about behavioral concerns at every HV; record it in the HV Log section below.

Home Visit Log

Visit Information | CHEERS/... | **Parent-Child...** | Health of TC... | Family Functioning/... | Concrete Activities

Child Development Activities of Home Visitor (check all that apply)

- ☐ Provide education, information, or activities on **child development** and age-appropriate behavior
- ☐ Provide developmentally appropriate **toys**, books, or activities
- ☐ Ask parent about **concerns** regarding their child's development, behavior, or learning
- ☐ Provide information on the **social/emotional development** of children and impacts of trauma
- ☐ **Follow-up** discussion of ongoing Early Intervention or CPSE (school district) services

MIS Report | Match Quality Summary of Home Visit Log Activities | High

Report Notes | % visits "Ask parent about developmental concerns"

Benchmark 14: Intimate Partner Violence Screening

Performance Indicator

Domain: Reductions in crime or domestic violence

 **Definition:** Percent of primary caregivers (PC1s) enrolled in home visiting who are screened for intimate partner violence (IPV) using a validated tool.

 **Cases that meet measure** (Numerator): # of PC1s enrolled in home visiting who are screened for IPV using a validated tool within 6 months of enrollment using a validated tool.

 **Total cohort** (Denominator): # of PC1s enrolled in home visiting for at least 6 months.

 **Your Focus:** Do the screen and record it!

HITS Screen: How often does your partner...?

61. Physically hurt you

62. Insult or talk down to you

63. Threaten you with harm

64. Scream or curse at you

65. If items 61-64 are not answered, why?

Benchmark 15: Primary Caregiver Education

Domain: Improvements in family economic self-sufficiency

Performance
Indicator

 **Definition:** Percent of primary caregivers (PC1s) who enrolled in home visiting without a high school degree or equivalent who subsequently enrolled in, maintained continuous enrollment in, or completed high school or equivalent during their participation in home visiting.

 **Cases that meet measure (Numerator):** # of PC1s who enrolled in, maintained continuous enrollment in, or completed a high school degree or equivalent after enrollment in home visiting (and met the conditions specified in the denominator).

 **Total cohort (Denominator):** # of PC1s without a high school degree or equivalent at enrollment.

 **Your Focus:** Have ongoing discussions with PC1s without a HS degree or equivalent about their educational goals.

Follow Up Form

☐ 7. Vocational training, technical or trade school (not HS) ☐ 8. Job search or job placement
☐ 9. Work experience ☐ 10. Other

11. Currently employed for pay? No

MIS Report | Match Quality Quarterly Performance Targets: item FLC5, FLC6 | Low

Report Notes | Report shows % PC1s under 21 at enrollment, no HS/GED, who enroll in ed program or obtain HS/GED by TC's 6 month, first birthday

Benchmark 16: Continuity of Insurance Coverage

Domain: Improvements in family economic self-sufficiency

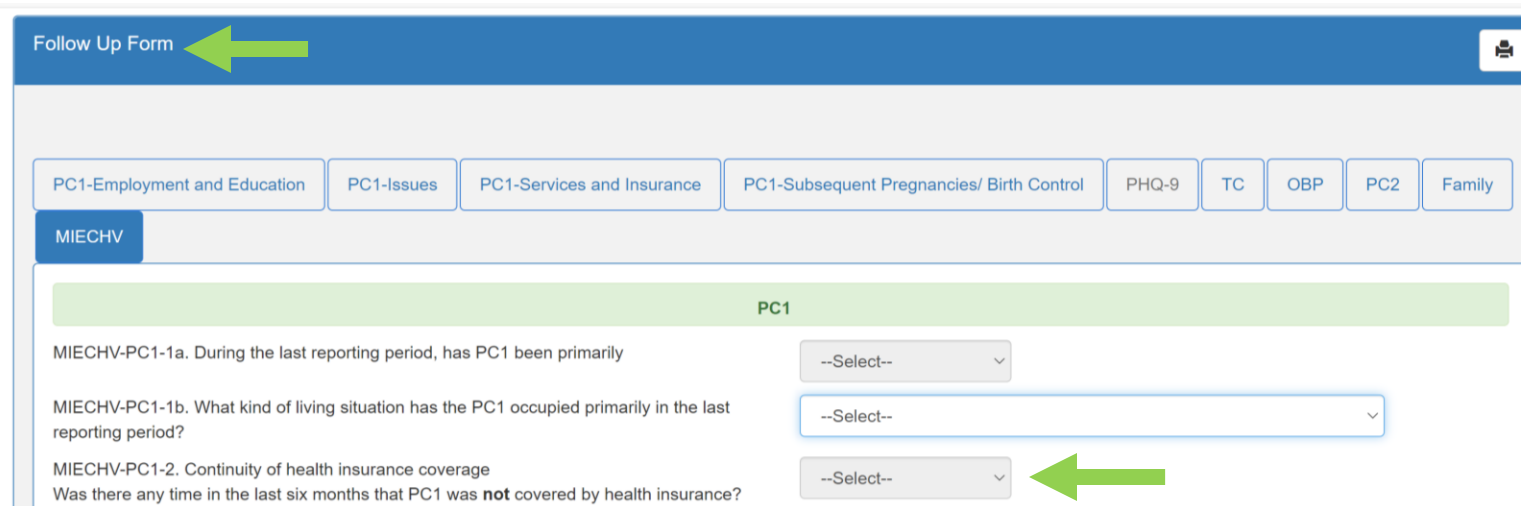

Systems
Outcome

 **Definition:** Percent of primary caregivers (PC1s) enrolled in home visiting who ever had continuous health insurance coverage for at least 6 consecutive months since enrollment.

 **Cases that meet measure** (Numerator): # of PC1s enrolled in home visiting who reported having health insurance coverage for at least 6 consecutive months.

 **Total cohort** (Denominator): # of PC1s enrolled in home visiting for at least 6 months.

 **Your Focus:** Try to make sure all PC1s have continuous health insurance coverage and ask about it regularly.

Report Notes | Outcome of any referral made in past quarter, not dependent on when PC1 enrolled; doesn't break out depression specifically

Benchmark 18: Completed Developmental Referrals

Domain: Improvements in the coordination and referrals for other community resources and supports

Systems
Outcome

 **Definition:** Percent of children enrolled in home visiting with positive screens for developmental delays (measured using a validated tool) who receive services in a timely manner.

 **Cases that meet measure** (Numerator): # of children enrolled in home visiting who a) received individualized developmental support from a home visitor; b) were referred to early intervention services and received an evaluation within 45 days; OR c) were referred to other community services and received services within 30 days (and met the conditions specified in the denominator).

 **Total cohort** (Denominator): # of children enrolled in home visiting with positive screens for developmental delays (measured using a validated tool).

 **Your Focus:** When a child has a positive screen, make the referral and follow up on service delivery status and record it.

Benchmark 19: Intimate Partner Violence Referrals

Domain: Improvements in the coordination and referrals for other community resources and supports

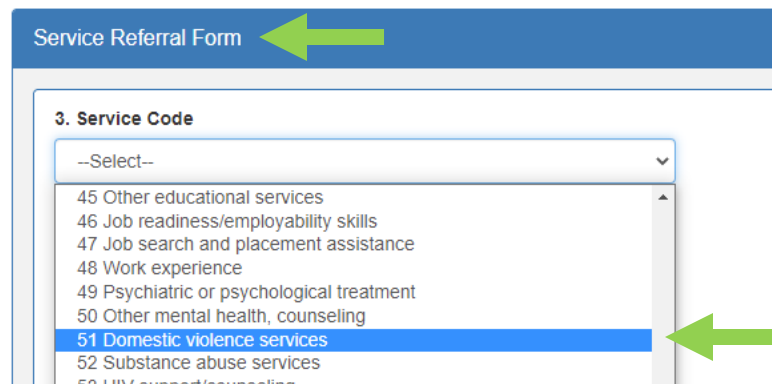

Performance
Indicator

 **Definition:** Percent of primary caregivers (PC1s) enrolled in home visiting with positive screens for IPV (measured using a validated tool) who receive referral information to IPV resources.

 **Cases that meet measure** (Numerator): # of PC1s enrolled in home visiting who received referral information to IPV resources (and met the conditions specified in the denominator).

 **Total cohort** (Denominator): # of PC1s enrolled in home visiting with positive screens for IPV (measured using a validated tool) within 6 months of enrollment.

 **Your Focus:** When a PC1 has a positive screen, make the referral and record it.

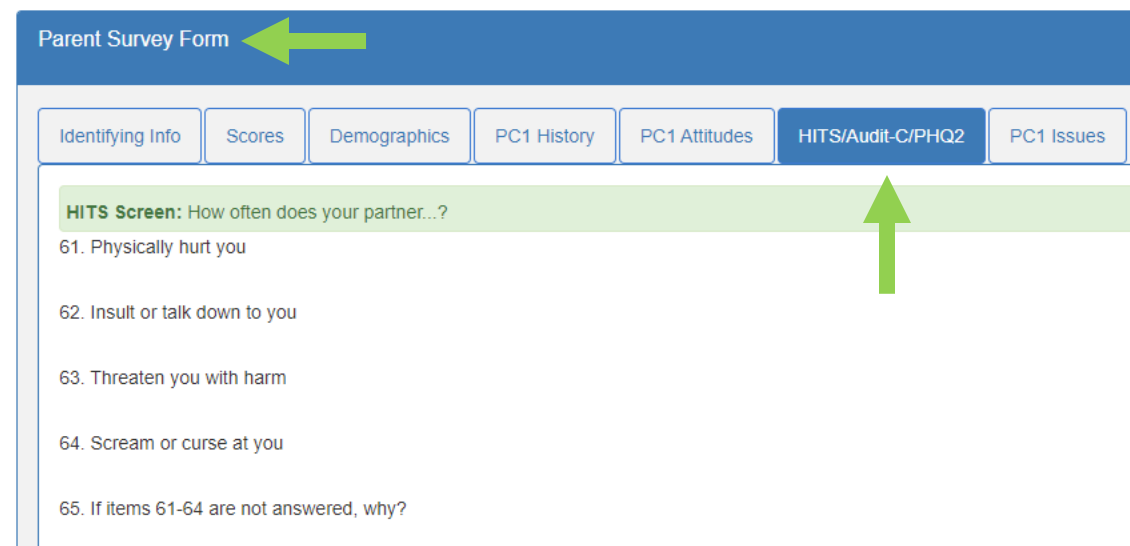

The screenshot shows the 'Service Referral Form' with a green arrow pointing to the title bar. Below the title bar, there is a section titled '3. Service Code' with a dropdown menu. The dropdown menu is open, showing a list of service codes. A green arrow points to the '51 Domestic violence services' option, which is highlighted in blue.

MIS Report | Match Quality List: Count of Service Referrals by Code | Low

Report Notes | Counts number of IPV-related service referrals given in period, not number of PC1s referred or timeline of referral

Additional Resource

[Video by CHSR on MIECHV reporting](#)

Recommended Audience: Program Managers, Supervisors At MIECHV Programs

Learning Objectives:

- Understand the items and constructs being measured by MIECHV
- Identify the additional items/activities MIECHV programs must ask/perform, and know how to answer them
- Distinguish the different types of program benchmarks, and be able to determine what is needed to meet each item
- Monitor and evaluate their own program's performance on the MIECHV benchmarks through CHSR's reports

[Slides from Video](#)
