HFA WRAPAROUND/HFNY MIS CROSSWALK

HFA has identified a set of training resources, some created by HFA and others developed by other organizations, that meet the wraparound training standards. Completing all of the training activities listed in the HFA Interim Wraparound Training Plan (updated March 2022) satisfies HFA's wraparound training requirements. If you are using the HFA Wraparound Training Plan, this grid provides you with the HFNY MIS Training Code to be used for each HFA suggested training resource. There are some instances where HFNY requires a specific or additional training resource. When this occurs, the training resource is noted in red.
